BOOMS. PORTABLE PACK AVAILABLE.

## FLIGHT REIMAGINES THE LITTLE PRINCE

The Little Prince is a timeless story about learning to see with the heart, and finding the courage to fly. These themes inspired **Flight**, a sequel with an acrobatic twist. In **Flight**, three acrobats morph into cactuses, waves, and far-off islands as we invite audiences to discover this classic tale like they've never imagined.

Six years later, the Pilot has forgotten the Little Prince's secret, so he embarks on a quest to find his lost friend and remember the secret. But nothing is as he remembers: planets are islands, the rose is a cactus, and the Little Prince is a tiny girl who proclaims that girls can be princes too.

Our physical approach to storytelling brings language to life with enchanting shapes, momentum, and magic. Written and directed by Ezra LeBank. Starring Taylor Casas, Ezra LeBank, and Cynthia Price as the Little Prince.
